Patty Cienciala

Architectural Visualiser

Architectural Visualiser with over three years of studio experience producing photorealistic imagery, including interior environments, exterior scenes and product renders, using 3ds Max, Corona and Photoshop. Adept at interpreting client briefs and translating design intent into high-quality visuals, with well-developed communication skills built through regular client contact and collaborative studio projects. Experienced in managing client and internal feedback to refine imagery efficiently, and confident working both independently and as part of a team to meet tight deadlines and exceed expectations.

PROFESSIONAL EXPERIENCE

CG Artist

Do Digital Agency | *October 2022 – Present*

Producing a wide range of high-quality imagery for a diverse client base within a busy visualisation studio, collaborating closely with colleagues and clients from initial brief through to final delivery.

- Deliver multiple concurrent projects from initial setup to final output, covering modelling, lighting, texturing, camera composition and post-production to achieve photorealistic results.
- Manage client and internal feedback, implementing revisions efficiently while maintaining quality standards and meeting deadlines.
- Collaborate with colleagues on large-scale projects, coordinating work across multiple images to ensure visual consistency and meet client expectations.
- Interpret client requirements and propose creative solutions, often from limited or ambiguous briefs, drawing on strong listening and problem-solving skills.
- Organise regular staff events and team-building activities within budget, accommodating a range of accessibility and support needs.

Student Intern

Interaction Ltd | *September 2021 – August 2022*

Supported the design team in a busy studio environment, gaining hands-on experience of professional workflows, client communication and design strategy within the interior design industry.

- Guided clients through design choices, offering fresh perspectives to resolve design challenges creatively.
- Participated in client-facing activities, including brief meetings and project pitches.
- Worked closely with the design team to support the development and presentation of design concepts.
- Developed strong professional communication and organisational skills within a collaborative studio environment.

Customer Assistant

ASDA | *December 2016 – October 2017*

- Received chilled, produce and meat deliveries, allocating stock to the correct storage areas in line with food safety standards.
- Located items for customers and replenished stock across the shop floor to maintain availability.
- Maintained neat, well-presented displays to consistent merchandising standards.
- Restocked shelves across three aisles alongside colleagues, strengthening teamwork under time pressure.
- Handled customer enquiries and requests, including price checks, returns and directions.
